Maximum Marks	2 Marks

Customer Journey Map

Mapped out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Observes poor crop yield. - Collects soil and weather information. - Looks for a suitable crop.	- Opens the OptiCrop application. - Enters N, P, K, temperature, humidity, pH, and rainfall values. - Submits the details	- Reviews the recommended crop. - Selects the suggested crop. - Applies the recommendation in farming.
Touchpoint <i>What part of the service do they interact with?</i>	- Soil testing reports. - Weather information. - Agricultural experts.	- OptiCrop web application. - Input form. - Prediction engine.	- Recommendation page. - Farming activities. - Crop cultivation process.

Customer Thought <i>What is the customer thinking?</i>	• Which crop is best for my land? • Will my soil support the crop?	• Is the recommendation accurate? • Can I trust this prediction?	• I hope this crop gives better results. • I expect higher yield.
	• How can I improve yield?	• Will this improve productivity?	• This can reduce farming risks.

<i>Customer Feeling</i>	Confused, concerned, and hopeful.	Curious, confident, and optimistic.	Satisfied, relieved, and motivated.
Process Ownership Who is in the lead on this?	Farmer	OptiCrop System	Farmer
Opportunities How can we improve this stage?	• Provide soil testing guidance. • Offer weatherbased insights. • Educate farmers about crop selection.	• Improve prediction accuracy. • Provide a simple user interface. • Add multilingual support.	• Give fertilizer recommendations. • Monitor crop growth. • Send weather and farming alerts.
