

Project Demo Planning

Date	09 July 2026
Team ID	SWUID2026211863
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for an AI-based crop recommendation system.
2	Solution Overview	Describe the project architecture, technologies, and workflow.
3	Live Feature Demonstration	Show user input, crop prediction, and recommendation results using the Flask application.
4	Q&A Session	Answer questions, discuss future enhancements, and conclude the demonstration.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project, objectives, and problem statement.	2	Nalli Harshith Reddy
2	Solution Overview	Explain the system architecture, technologies, and workflow.	2	
3	Dataset & Machine Learning	Explain dataset, preprocessing, model training, and evaluation.	3	
4	Live Application Demo	Demonstrate the Flask application and crop prediction process.	4	
5	Results & Benefits	Present prediction results, model accuracy, and project benefits.	2	
6	Conclusion & Q&A	Summarize the project and answer questions from the evaluator.	2	

Demo Flow Summary:
